

PLEASE ENTER OUR RAFFLE!

LET'S PURCHASE AN AED KIT FOR THE OVAL!

Together with Jarrod and Lisa from the Swimming Pool, we're helping to raise \$3,500 to purchase a defibrillator & oxy resuscitation kit for the Oval.

The Swimming Pool has one, and it was very much in need recently. Yet despite many of us and our children using the Oval – especially during both football seasons and for little A's – there is not one on hand at this facility. But we can change that!

By securing prizes to be raffled and encouraging local businesses to donate to the cause, our \$3,500 target is certainly achievable.

Using an Automated External Defibrillator (AED) on a casualty can be vital to their survival. An AED delivers measured electric shocks to attempt to restore the heart to a normal effective rhythm. Each minute that passes before an AED is used decreases a casualty's chance of survival
